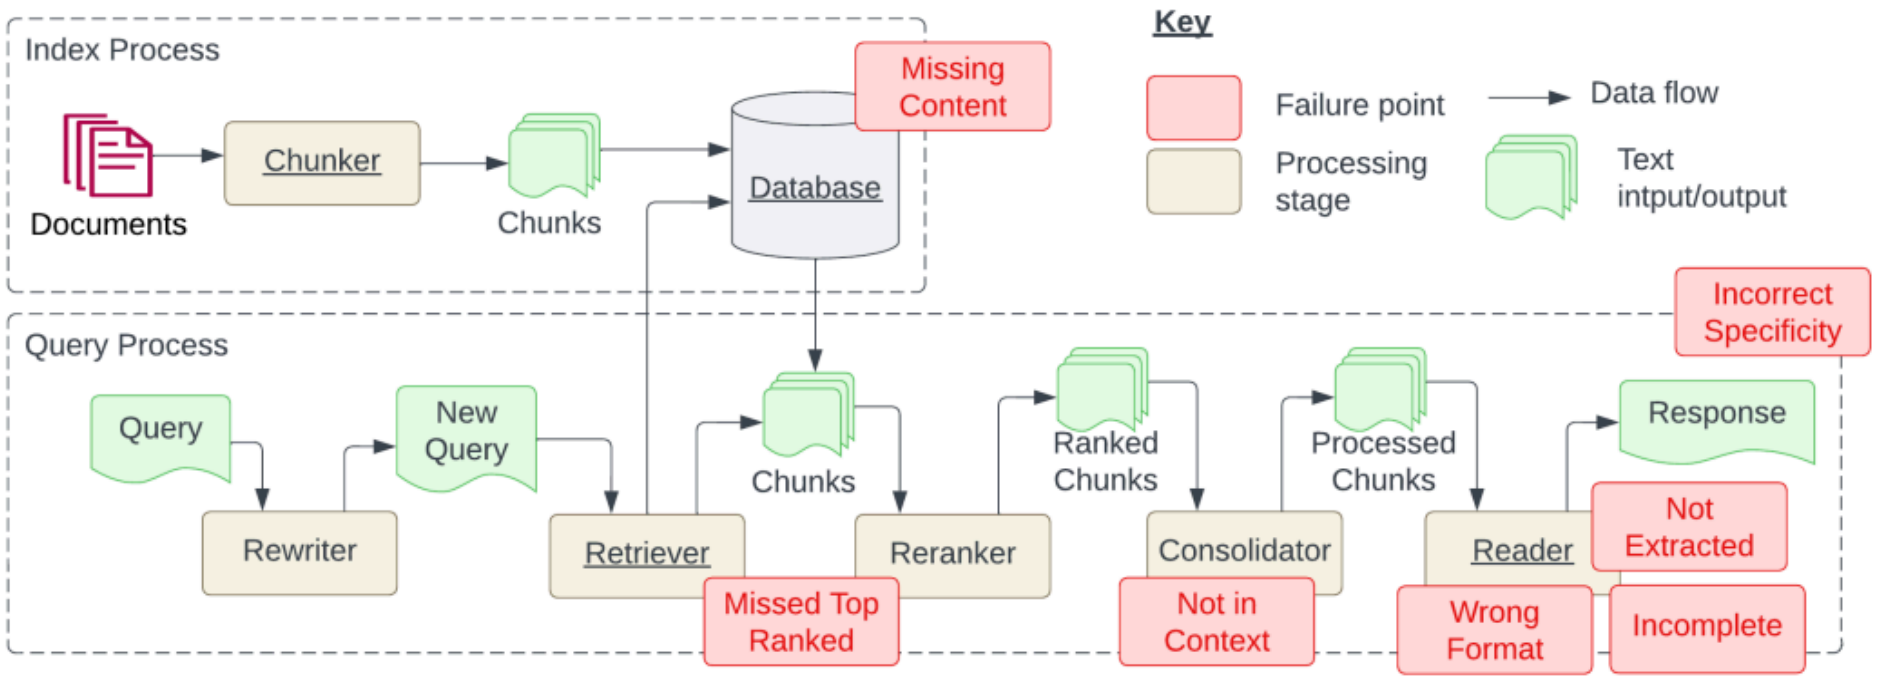
8 RAG Pain Points and Proposed Solutions



1. Missing Content → Clean your data and do Better Prompting
2. Missed the Top Ranked Document → HyperParameter Tuning for chunk_size and similarity_top_k
3. Not InContext - Consolidation Strategy Limitations → Tweak Retrieval Strategies
4. Not Extracted → Prompt Compression
5. Wrong Format → Better Prompts and Better Output Parsing
6. Incorrect Specificity → Advanced Retrieval Strategies
7. Incomplete → Query Transformation
8. Data Ingestion Scalability → Parallelising indigestion Pipeline
